About this seminar:

Did you know that Ukrainians have been living in Australia since the mid-19th century? Ukrainian-Australians have had their fair share of notable personalities including explorers, ANZACs, artists, filmmakers, politicians, musicians and more. But with each day, hundreds of stories are being forgotten. Including those of your own family.

Learn how to save the history of Ukrainians in Australia and bring stories to life with new technology in this hands-on seminar and workshop for young adults.

You'll meet inspiring speakers who can help you leverage the technology you already love to record the past. With amazing technology at our fingertips, storytelling is faster and easier than ever through blogs, YouTube, and social media.

In the workshop you will:

- Learn how to interview interesting people and turn their stories (and your own!) into blogs;
- Make videos of Ukrainian life in Australia and upload them to a new Ukrainian youth YouTube channel;
- Discover opportunities to study in Ukraine or do a student exchange;
- Explore new career paths and learn about work experience opportunities in Australian and Ukrainian parliament.

No Experience Necessary!

You may bring a laptop or other electronic device.
